“Developing Sustainable Power Solutions for the Future”

Raynexa Energy Pvt. Ltd. is a fast-growing renewable energy and electrical EPC company delivering reliable, sustainable, and cost-effective power solutions across India.

We specialize in Solar EPC (Engineering, Procurement & Construction), Electrical Infrastructure Projects, and Renewable Energy Consultancy, offering complete solutions from project design and engineering to installation, commissioning, and long-term maintenance.

As an Indian MSME company, Raynexa Energy combines technical expertise, innovative engineering, and strong field experience to execute projects ranging from residential rooftop solar systems to large industrial and infrastructure power projects.

Our mission is to support India’s clean energy transition by developing efficient, reliable, and sustainable power systems.

OUR GROUP COMPANIES

Pragati Electric Solutions

A Government Licensed Electrical Contractor specializing in electrical infrastructure projects including substations, HT/LT transmission lines, industrial electrical contracting, and power distribution works.

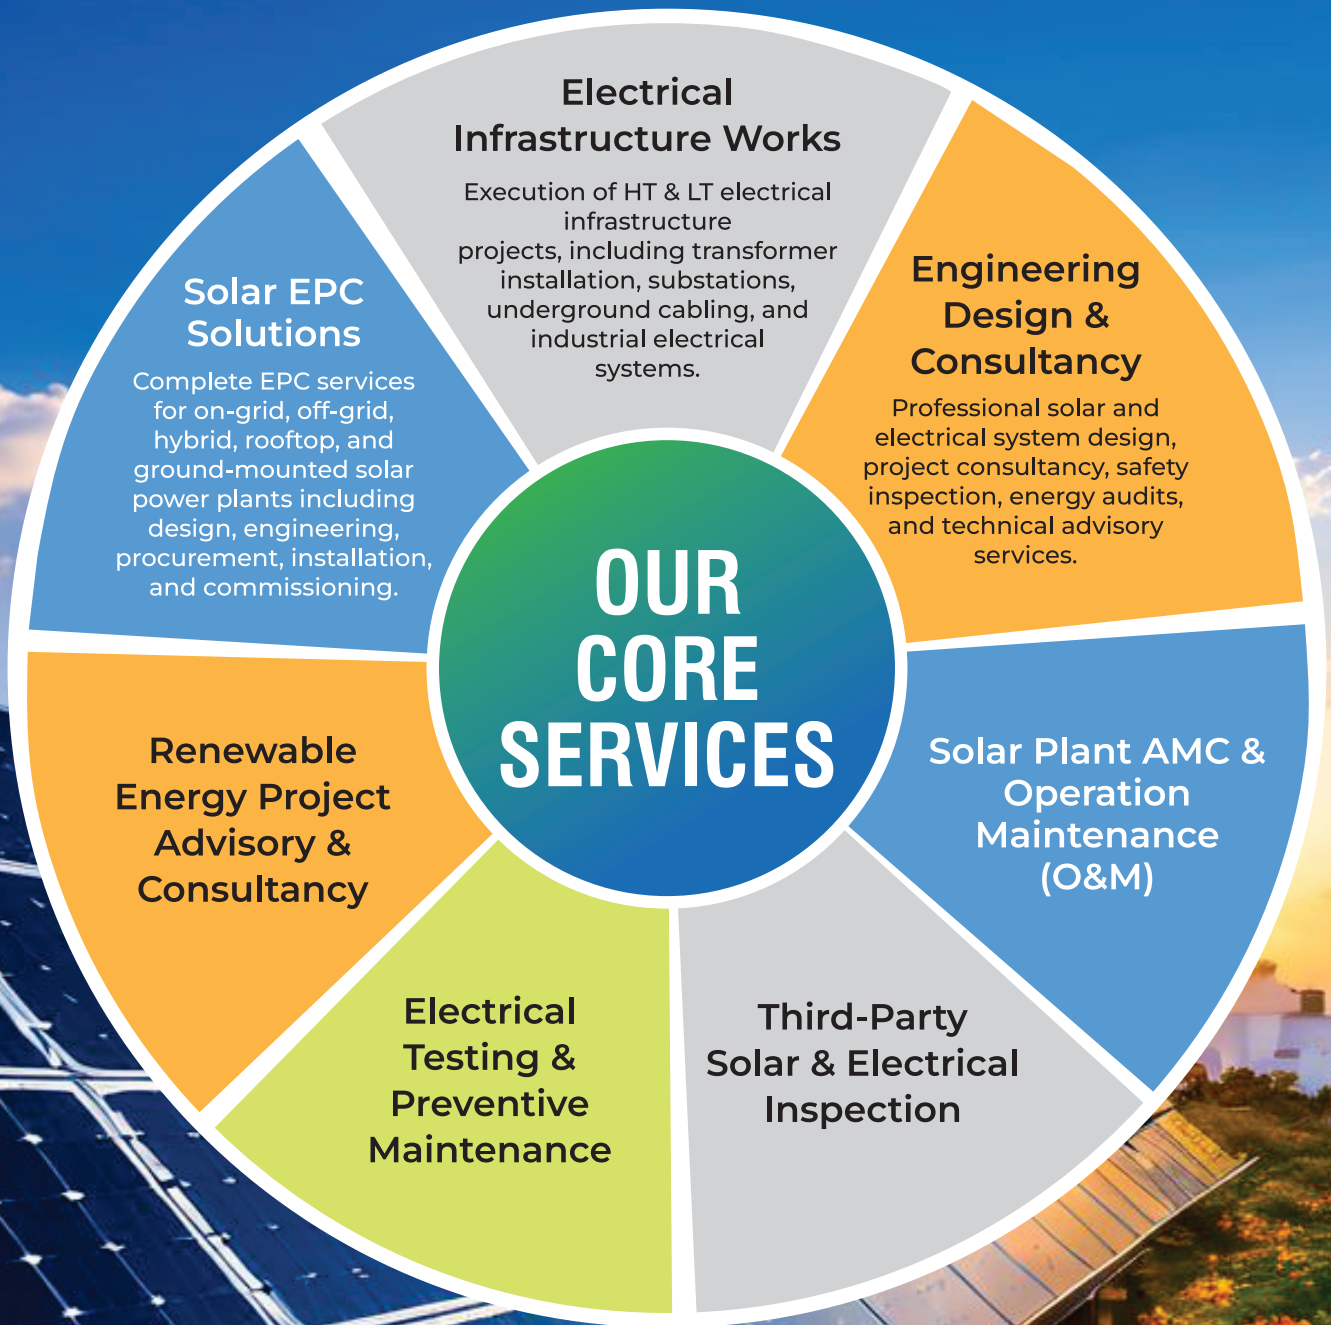

Shivoham Energies & Solutions

A renewable energy company focused on PM Surya Ghar solar subsidy projects, rooftop solar installations, and solar water pumping systems across residential and agricultural sectors.

Ecotech Energy Solutions

A renewable energy firm delivering rooftop solar EPC services, solar subsidy installations, and distributed solar power projects across multiple states.

OUR PROJECT EXPERTISE

- Rooftop Solar Power Plants (EPC)
- Ground Mounted Solar Power Projects (INC & EPC)
- Electrical Infrastructure Development
- LT & HT Transmission Line Works
- Transformer Installation & Commissioning

INDUSTRIES WE SERVE

- Industrial Manufacturing Units
- Commercial Buildings & Malls
- Residential Housing Projects
- Government Infrastructure Projects
- Ground Mounted Solar Projects
- Agricultural Solar Pump Projects

COMPANY HIGHLIGHTS / KEY STRENGTHS

- Complete Solar EPC & Electrical Infrastructure Capability
- Ability to execute renewable energy and electrical infrastructure projects under one integrated execution team.
- Government Licensed Electrical Contractor Support
- Strong project execution capability through Pragati Electric Solutions.
- 1000+ PM Surya Ghar Solar Projects
- Through Shivoham Energies & Solutions, successfully completed 1000+ residential rooftop solar subsidy installations.
- 10,000+ Solar Pump Installations
- Extensive experience in solar water pumping systems for agricultural and rural electrification projects.
- 300+ Rooftop Solar Installation Projects
- Through Ecotech Energy Solutions, executed and supported 300+ solar installation projects.

Trusted Execution Partner for Leading Solar Companies

Experienced Engineering & Technical Team

A highly experienced team with strong expertise in solar EPC, electrical infrastructure, and industrial power systems.

OUR VISION

To become a trusted leader in renewable energy and electrical EPC services by delivering innovative, sustainable, and high-performance power solutions.

OUR MISSION

To provide cost-effective, reliable, and environmentally responsible energy solutions that empower industries, businesses, and communities.

WHY CHOOSE

Complete Solar EPC & Electrical Infrastructure execution capability

Experienced engineering and technical execution team

Support from government licensed electrical contractor

Proven experience in residential, commercial, and industrial projects

Reliable project execution with high quality and safety standards

Renewable Energy & Electrical EPC Company

📍 Sanghmeshwar Colony, Old Ausa Road,
in front of Ganesh temple Hatte Corner, Latur, Maharashtra - 413512.
